

TREE STOMP

What a Wonderful World

Hello,

Welcome to the first CD issued for Tree Stomp, the Centenary Camp of Central Yorkshire Scouts.

Some of you will have seen the original presentation from my colleagues on the County Team; this CD is designed for you to use at a Sectional meeting or—even better—your AGM.

The CD contains two versions of the same presentation:

- One is "looped": it will keep running again and again once you set it off and would be suitable if you wanted, for example, to show the presentation in a foyer for people waiting for an AGM to start. If you choose to use this version, then you just need to double click the "Click Me" icon and, once PowerPoint opens, click "Read Only", press F5 to start the show.
- The second version of the presentation runs just the once. There are black slides at the beginning and end of the show, so the screen won't be all cluttered whilst you are getting ready to go. If you choose to use this version, then you just need to double click the "Click Me" icon and, once PowerPoint opens, click "Read Only", press F5, then press space bar to start the show when you are ready.

The presentation runs automatically with music. There are two sections to the presentation, with a brief pause in between them of about four seconds.

If you would like to show this presentation, but don't have the equipment to do so, then you can give us a ring, and we'll see if we can help you, or put you in touch with someone in your own District who might be able to help you.

Please feel free to copy this presentation as required and circulate to as many people as possible.

Yours in Scouting

John and Chris Coates
